

**Dog's Name:** Britt

**City:** Watertown

**Britt's Story:**

I took Britt in as a foster pup about three months after my beloved Bailey died. I was lonely, but honestly not thinking adoption...Britt had other plans. From minute one she has attached herself to me and to any other human or dog who enters her life. She is a love sponge. Amazingly she gives so much in return. She has funny quirks such as doing half somersaults to lay herself down, walking around the house and coming to bed with her baseball, getting her food in her mouth and walking around the house to actually chew it wherever her human is... I knew from day three that I did not want her to leave. She still has a lot to learn but she is a true Golden - always loving and seeking to please her human.
