**Meadow Rose's Story:**

**Update November 28, 2007**

this our gift from GRRoW, Meadow Rose, (Shelby Rose).

She is a perfect golden in every way. She came to us at age 18 mos. Her foster mom, Carol Williams, will be forever in our hearts. She taught Meadow to love, understand that she is loved, and to be there perfect, and we do mean perfect golden. When picking up Meadow, my daughter and I had to hurry away....we know Carol wanted to keep Meadow. Who could blame her.

Meadow is now 5, and still our best friend, and love bug. We could not have asked for more in a pup that Meadow. We lost a golden, Shannon and a black

labbie, Boo within five days of one another. Devastated to put it mildly. So we sent a letter to GRRoW, and our bridekids sent us Meadow.( We are quite certain, our first GRRoW pup, Sheba has a hand in this, as well. Sheba came to us at age 13 plus.) Thanks GRRoW for all you do. Rescuing and rehoming these wonderful pups is a life avocation. thank you from Jim, Ginny and Meadow Rose. (and to Carol Williams her first mom!)

Meadow Rose is still the fur love of our family. She is perfect. Thanks to Carol Williams for this blessing in fur. She loves to chase squirrels, rabbits....does not care to chase a ball. Kisses, she shares' them very well, expecially with our 17 mos. old granddaughter. Meadow is the perfect low key gal. We love her beyond reason. I am waitting for the right time to suggest another one...timing is everything. thanks GRRoW for Meadow!
