

Dog's Name: Oso

City: Appleton

Oso's Story:

Three-year-old Oso came to us in March. He was our first foster with the intent to adopt (FWITA) dog, and we fell in love with him the minute we picked him up. Oso was very nervous and anxious, and still is a bit, but has come a long way in four months. He gets along with our one-year-old golden, infact they never leave each other's side. We're hoping that within six months we'll start fostering again, for it brings so much joy in knowing that we're helping the best dogs on earth!
